Paris, France | fatimetou.ellbah@gmail.com | [Website](#) | [LinkedIn](#)

PROFILE

PhD candidate in economics specialising in the causal evaluation of education and labour-market policy using quasi-experimental methods. Experience producing and communicating policy research for government, academic and international organization audiences.

EDUCATION

PhD in Economics, Sciences Po Paris 2022 – 2026 (*expected*)

- Dissertation: Three essays on the causal effects of education policies (class size, teacher bonus schemes) in France, using large-scale longitudinal administrative microdata.

Master in Public Policy and Development, Paris School of Economics 2021 - 2022

- Thesis: Causal evaluation of early class size reduction on student performance in France, using regression discontinuity design on national administrative data.

Master in Economics, Sciences Po Paris 2019 - 2021

- Thesis: Mixed-methods evaluation of UNHCR's Livelihoods and Economic Inclusion Programme across three sub-Saharan countries (Kenya, Malawi, Zambia), combining household survey data and qualitative stakeholder interviews.

BSc in Industrial and Systems Engineering, Wright State University, Ohio, USA 2015 - 2019

EXPERIENCE

Research and Evaluation Officer, Directorate of Evaluation, Forecasting and Performance Monitoring (DEPP), French Ministry of Education 2022 - *present*

- Conduct causal policy evaluations using large-scale longitudinal administrative microdata, applying quasi-experimental methods (regression discontinuity, difference-in-differences) to produce evidence for policy decisions
- Communicate empirical findings to technical and non-technical audiences, including ministry staff, researchers, and external partners
- Authored a ministerial briefing note and published a working paper on the long-term effects of class size reduction on student outcomes in priority education zones ([link](#))
- Contribute to a multi-institutional working group (government inspectorate and academic researchers) evaluating the *groupes de besoin* reform in French middle schools

Evaluation Consultant, Office of Evaluation, Food and Agriculture Organization of the United Nations (FAO) 2022 - 2024

- Designed and implemented an impact evaluation of a cash-for-work programme in Somalia, managing all phases from inception to final reporting
- Oversaw the procurement of a data collection partner through a competitive bidding process, including drafting terms of reference, assessing technical and financial proposals, and preparing selection and justification reports
- Developed data collection protocols, trained enumerators, and supervised field data collection in a complex fragile-state context
- Cleaned, analysed, and interpreted household-level survey microdata; contributed to FAO's cash-for-work programme baseline report ([link](#))

Research Assistant, Sciences Po Paris 2021-2022

- Contributed to an impact evaluation of educational technologies using administrative and survey data.

WORKING PAPERS

The long-term effects of class size reduction in priority education on student performance (in French) ([link](#))

The Long Reach of Targeted Smaller Classes: Evidence from a National Reform ([link](#))

Higher Pay or Smaller Classes? Retaining Teachers in Hard-to-Staff Schools ([link](#))

TEACHING

Analysis & Evaluation of Public Policies 2023-2025

Master in Public Policy, Teaching Assistant, Sciences Po Paris

Quantitative Methods & Evaluation of Public Policy 2023

Master in Public Policy, Lecturer, Sciences Po Paris
